

QUESTIONS TO ASK BEFORE IMPLEMENTING ANY AI TOOL

Before using an AI tool with your students, can you honestly answer “Yes” to all of these?

TRANSPARENCY

☐
☐

Can I clearly explain what this tool does and how it works to a parent or student?

Are the rules and data sources openly described by the provider?

FAIRNESS

☐
☐

Is there evidence that this tool works equally well for all students, regardless of background or ability?

Has the tool been reviewed for bias by independent experts?

PRIVACY

☐
☐

Is there a clear privacy policy that explains what data is collected and how it will be used?

Can parents and students easily understand and access these policies?

ACCURACY

☐
☐

Are there procedures for correcting mistakes or challenging unfair decisions made by the AI?

Is the tool's accuracy rate known and acceptable for your context?

ALTERNATIVES & ACCESSIBILITY

☐
☐

Are there alternative options for students who cannot or prefer not to use this tool?

Does the tool provide accommodations for students with different needs?

SUPPORT & ACCOUNTABILITY

☐
☐

Is there someone (school, company, or district) responsible for helping if things go wrong?

Are there clear feedback channels for students, teachers, and families?
